

**DNREC – Groundwater Discharges**

**LEGAL NOTICE**

**Spray Irrigation Permit**

Artesian Wastewater Management, Inc. has applied to the Groundwater Discharges Section for an amendment to State of Delaware Spray Irrigation Construction Permit DEN Number: 359288-01. The current permit authorizes the construction of a wastewater treatment facility that will be known as Artesian Northern Sussex Regional Water Recharge Facility (ANSRWRF). The amendment requests the modification of Phase I to allow for the storage and disposal of treated industrial wastewater. The treated, reclaimed wastewater is proposed to be utilized for spray irrigation on privately owned agricultural land, under a lease held in perpetuity by Artesian as the wastewater utility provider. The proposed irrigation site encompasses approximately 1,714 acres of land which includes both wooded and agricultural acreage. Construction of the storage lagoon, pump station and chlorination equipment is proposed to be performed on Sussex County Parcel Number: 235-6.00- 28.09; a 75 acre site located south of Reynolds Pond Road, east of Route 30, north of Ingram Branch and Route 16, and west of Cedar Creek Road, Sussex County, Delaware.

The above mentioned application may be inspected by contacting:

Jack Hayes  
Groundwater Discharges  
89 Kings Highway, Dover, DE 19901  
[John.Hayes@state.de.us](mailto:John.Hayes@state.de.us)  
(302) 739-9948

**A public hearing on the above application will NOT be held unless the Secretary of DNREC determines that a public hearing is in the public interest or if a written meritorious objection to the application is received within 15 days from this notice. A public hearing request shall be deemed meritorious if it exhibits a familiarity with the application and provides a reasoned statement of the action's probable impact.**
